

T-GRILL, COOKING WITH PERFORMANCE AND STYLE

Powered by the new Crossray® technology the T-Grill can sear food in seconds, giving you steakhouse results in your own backyard.

T-Grill hoods are available in 3 colours: Beige Metallic, Liquid Blue or Dolphin Grey.

HOTTER. FASTER. JUICIER & LESS SMOKE

Crossray® technology has less smoke and virtually no flare-ups by using left and right infrared ceramic burners. Where traditional systems have burners directly underneath the cooking zone, Crossray® technology has a revolutionary design that directs overlapping waves of infrared heat into the cooking zone.
