

# CHARCOAL GAS INDU ACCESSORIES MARKE

Barbecuing on induction is fast. Amazingly fast. Barbecook® combines this speed with **pure force and low consumption**. Benefits that make the difference with a conventional electric barbecue. But no doubt that the biggest benefit is the grilling result. Nicely crusty on the outside and deliciously tender on the inside. Amazingly **delicious**.

## Hercules

Our Hercules has earned its name.

The Hercules has an exceptionally powerful baking capacity

The grilling result is deliciously perfect

### Pure force for a perfect result

The Hercules is excellent for browning. It has a baking capacity that is no less than **four times as powerful** as a conventional electric barbecue. This way, you can even perfectly grill thick pieces of meat. **On the grill or on plancha?** With the cast iron griddle with corrugated and flat side, the choice is yours!

## Multi-functionality gets a face

The Hercules is more than just a barbecue. It is your **cooking partner at any moment**. For **barbecuing** on the balcony or terrace, or for **heating** vegetables or sauces, next to your charcoal or gas barbecue. You can also remove the induction hot plate from the cart and use it as **extra cooking plate**. It is total fun when you put the cooking plate in the centre of the table, and have an enjoyable cooking moment together. Multi-functionality, it is a promise which the Hercules lives up to without effort.
